

NATIONAL FORKLIFT SAFETY DAY

June 12th is National Forlift Safety Day (NFSD). Are you ready?

Order Your Pederstrian Spotlights Today and Keep Your Team Safe!

ECCO's LED Pedestrian Spotlights are designed specifically for material handling applications to provide a visual warning for pedestrians in the vicinity of mobile equipment.

These lights are intended as a supplemental safety device in addition to a 360° warning light and project a blue or red, 300 lumen spot beam onto the ground either in front or to the rear of the vehicle.

This additional safety feature is especially useful where blind corners are present (i.e. warehouse racking) and is likely to be seen by pedestrians that are not looking up or paying close attention to their surroundings.

Featuring 12-48 VDC operation, an aluminum housing and polycarbonate lens the EW2000 is extremely resistant to impact and vibration damage and has an IP67 ingress protection rating.

Red Spotlight
Part Number: A000047804
Blue Spotlight
Part Number: A000044224

Spotlight Features

- Blue/Red illumination
- Four 3-watt LEDs
- Voltage :12-48
- Polycarbonate lens
- Aluminum heatsink housing
- IP67
- Warranty: 4 years
