

# SURESTART Preventive Maintenance Service

## Engines and Generators

## PM Level 9

## Fuel Polishing

Fuel polishing removes water and bacterial growth from diesel fuel that can damage pumps and injectors, restores fuel quality and eliminates the need for fuel disposal.

Benefits of fuel polishing are:

- Increased overall reliability of engine operation
- Prolong fuel filter life by removing contaminated particles down to 3 microns.
- Increase the shelf life of stored fuel by eliminating sludge and water buildup in the tank.
- *Recommended Service: Annually or based on sample lab test results*

SURESTART Service is a Quinn preventive maintenance and inspection program, custom designed to help reduce power system operating costs, prolong component life, and increase the overall reliability of your equipment.
