

PLANNED REPAIR OPTIONS

FOR COMPONENT REBUILDS

Quinn Company's Planned Repair Options is the cost-effective way of extending component life and lowering machine owning and operating costs. Rebuilding and reconditioning major components when they reach the end of their expected life makes good business sense. Quinn's 11 full-service facilities are equipped with state-of-the-art technology, diagnostic equipment, and tools to provide fast, high-quality service. Our team of factory-certified technicians will ensure your equipment is at peak performance to deliver the results you need.

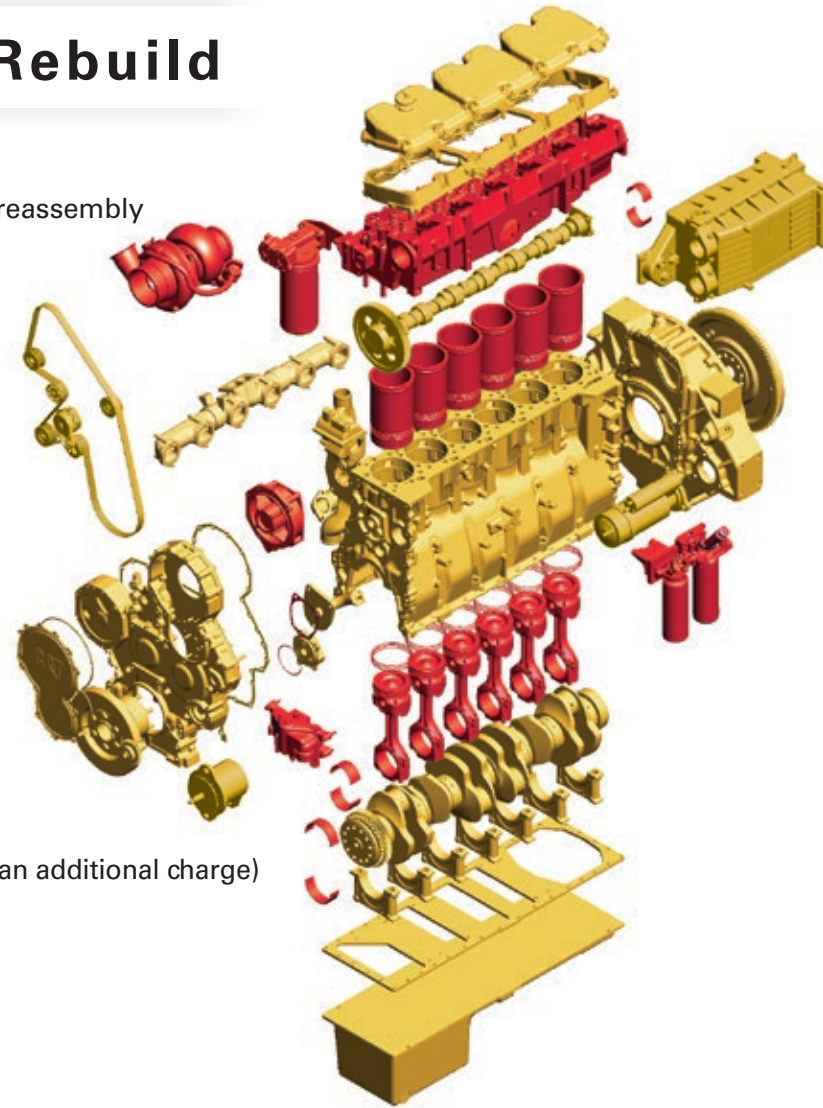

PRO Basic Engine Rebuild

INCLUDES:

- Clean; partial disassembly, inspection, and reassembly
- Reconditioning or replacement of:
 - thermostat
 - oil pump
 - oil filter
 - connecting rod bearings
 - crankshaft bearings
 - pistons
 - rings
 - liners
 - connecting rods
 - cylinder head
 - turbo charger
 - exhaust studs & nuts
 - water pump
 - all engine related filters
 - breather
 - filler cap
 - fuel nozzles (injectors can be replaced for an additional charge)
 - engine oil cooler

ITEMS INCLUDED, BUT NOT HIGHLIGHTED:

- oil cooler
- thermostats

PRO Basic Engine Rebuild Terms and Conditions:

Quinn Company warrants the PRO repair(s) of the component(s) on your machine to be free from defects in materials and workmanship under normal use and service within the published warranty period.

PRO Engine warranty is limited to the repair or replacement (including both parts and labor) of parts Quinn Company determines upon inspection to have been defective in material or workmanship.

All warranties are subject to scheduled oil sampling, cooling system meeting manufacturer performance requirements, and oil cooler and radiator testing, reconditioning or replacement.

PRO Engine Rebuilds do not include machine work or replacement of blocks, housings, crankshafts, camshafts, timing gears, accessory drive gears, manifolds, flywheel, ring gear, pulleys, exhaust shielding, wire harness, ECM's, DPF cleaning, fluids, or any emissions related repairs.

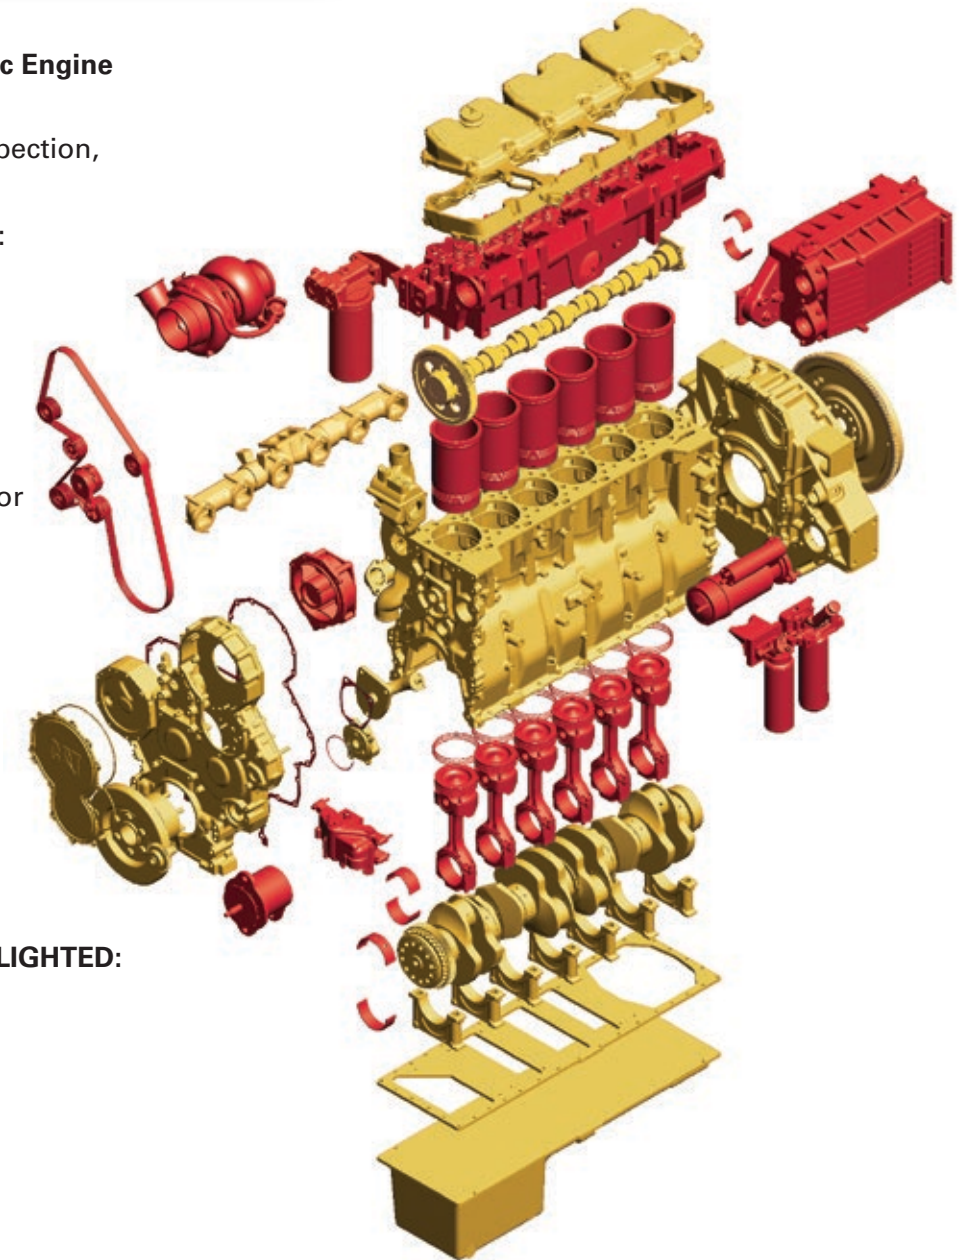

PRO Major Engine Rebuild

Includes everything in the Pro Basic Engine Overhaul, PLUS:

- Clean; complete disassembly, inspection, and reassembly
- Reconditioning or replacement of:
 - all bearings
 - all seals
 - all gaskets
 - all locks
 - alternator
 - starter
 - engine lubricated air compressor
 - all belts
 - all attached fan drives
 - mechanical fuel injection pump/HEUI pump
 - all fuel nozzles/injectors
 - fuel transfer pump (diaphragm type only)
- Inspect and polish crankshaft and camshaft
- Dyno and paint

ITEMS INCLUDED, BUT NOT HIGHLIGHTED:

- oil cooler
- injectors
- thermostats

PRO Major Engine Rebuild Terms and Conditions:

Quinn Company warrants the PRO repair(s) of the component(s) on your machine to be free from defects in materials and workmanship under normal use and service within the published warranty period.

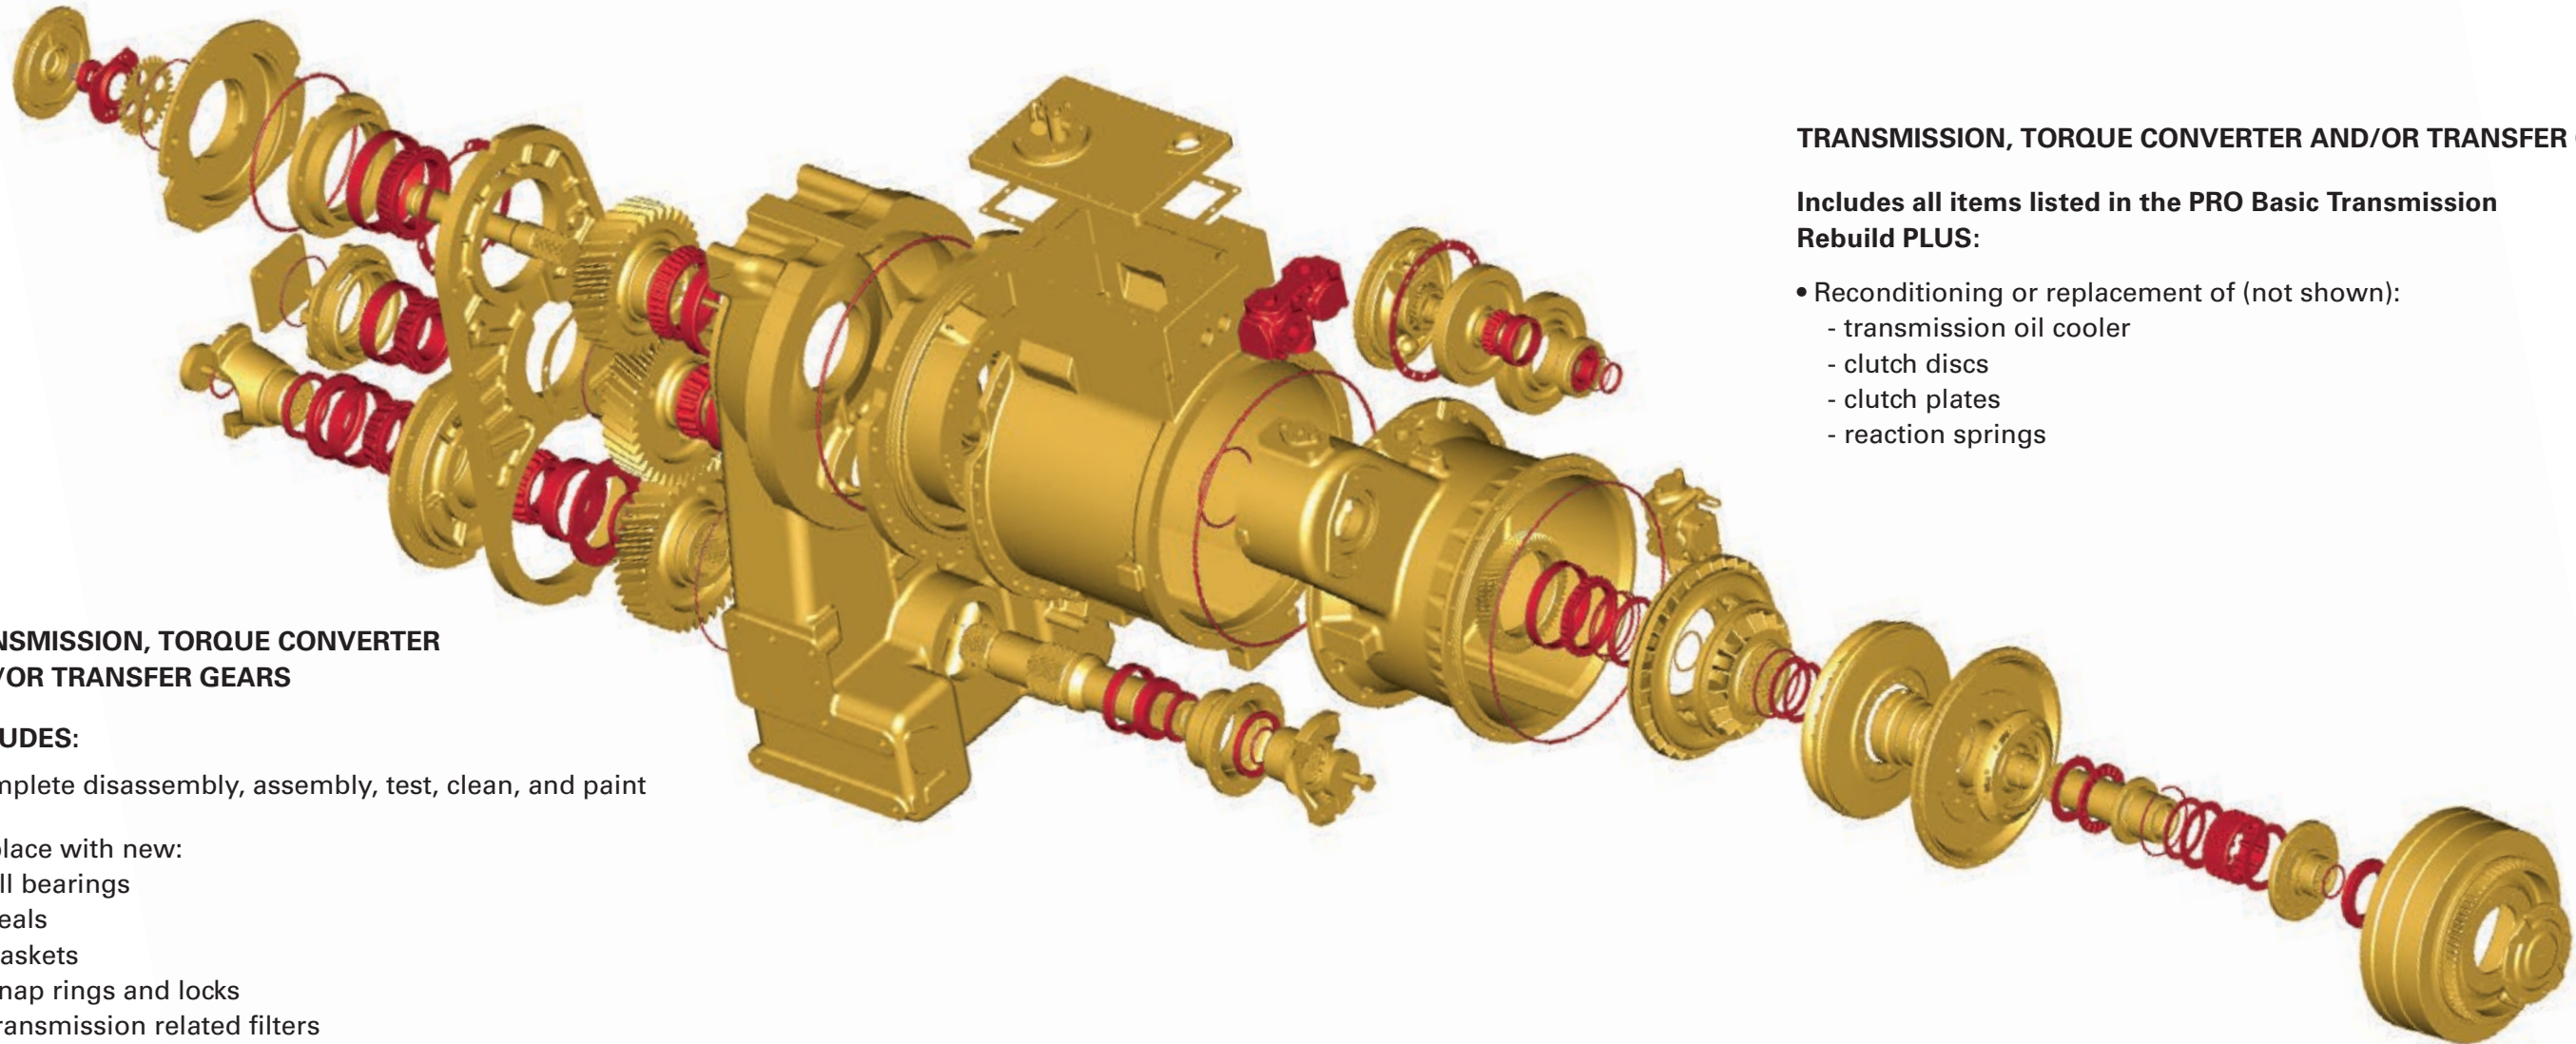

PRO Engine warranty is limited to the repair or replacement (including both parts and labor) of parts Quinn Company determines upon inspection to have been defective in material or workmanship.

All warranties are subject to scheduled oil sampling, cooling system meeting manufacturer performance requirements, and oil cooler and radiator testing, reconditioning or replacement.

PRO Engine Rebuilds do not include machine work or replacement of blocks, housings, crankshafts, camshafts, timing gears, accessory drive gears, manifolds, flywheel, ring gear, pulleys, exhaust shielding, wire harness, ECM's, DPF cleaning, engine oil, or any emissions related repairs.

Quinn PRO overhauls include a 36 Month / 5,000 Hour warranty, whichever occurs first.

PRO Basic Transmission Rebuild

TRANSMISSION, TORQUE CONVERTER AND/OR TRANSFER GEARS

INCLUDES:

- Complete disassembly, assembly, test, clean, and paint
- Replace with new:
 - all bearings
 - seals
 - gaskets
 - snap rings and locks
 - transmission related filters
 - breather
 - filler cap

PRO Basic Transmission Rebuild Terms and Conditions:

Transmission pump not included in rebuild price but is a required additional charge to receive 36 month/5,000 hour warranty.

Quinn Company warrants the PRO repair(s) of the component(s) on your machine to be free from defects in materials and workmanship under normal use and service within the published warranty period.

PRO Transmission warranty is limited to the repair or replacement (including both parts and labor) of parts Quinn Company determines upon inspection to have been defective in material or workmanship.

All warranties are subject to scheduled oil sampling, cooling system meeting manufacturer performance requirements, and oil cooler and radiator testing, reconditioning or replacement.

PRO Transmission repairs do not include transmission oil cooler, machine work or replacement of cases, housings, castings, transfer gears, ring/planet/sun gears, wire harnesses, fluids.

PRO Major Transmission Rebuild

TRANSMISSION, TORQUE CONVERTER AND/OR TRANSFER GEARS

Includes all items listed in the PRO Basic Transmission Rebuild PLUS:

- Reconditioning or replacement of (not shown):
 - transmission oil cooler
 - clutch discs
 - clutch plates
 - reaction springs

PRO Major Transmission Rebuild Terms and Conditions:

Transmission pump not included in rebuild price but is a required additional charge to receive 36 month/5,000 hour warranty.

Quinn Company warrants the PRO repair(s) of the component(s) on your machine to be free from defects in materials and workmanship under normal use and service within the published warranty period.

PRO Transmission warranty is limited to the repair or replacement (including both parts and labor) of parts Quinn Company determines upon inspection to have been defective in material or workmanship.

All warranties are subject to scheduled oil sampling, cooling system meeting manufacturer performance requirements, and oil cooler and radiator testing, reconditioning or replacement.

PRO Transmission repairs do not include transmission oil cooler, machine work or replacement of cases, housings, castings, transfer gears, ring/planet/sun gears, wire harnesses, fluids.

Quinn PRO overhauls include a 36 Month / 5,000 Hour warranty, whichever occurs first.

PRO Basic Final Drive/Differential Rebuild

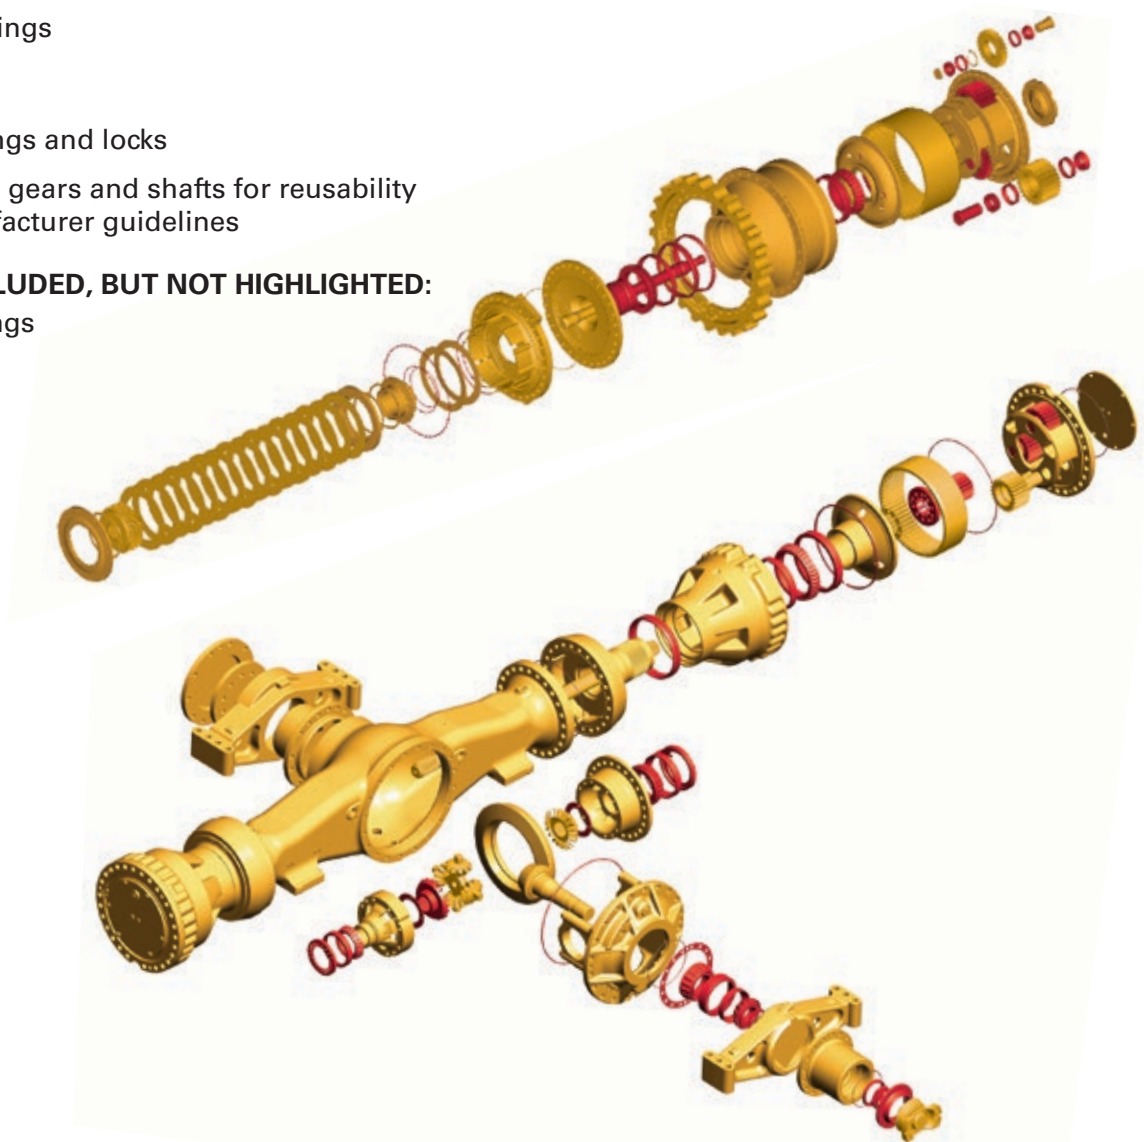

PRO BASIC FINAL DRIVE/DIFFERENTIAL

INCLUDES:

- Complete disassembly, assembly, cleaning, and paint
- Replace with new:
 - all bearings
 - seals
 - gaskets
 - snap rings and locks
- Inspect all gears and shafts for reusability per manufacturer guidelines

ITEMS INCLUDED, BUT NOT HIGHLIGHTED:

- snap rings
- locks

PRO Basic Final Drive/Differential Rebuild Terms and Conditions:

All warranties are subject to scheduled oil sampling. PRO Repair prices do not include machine work.

Quinn Company warrants the PRO repair(s) of the component(s) on your machine to be free from defects in materials and workmanship under normal use and service within the published warranty period.

PRO Final Drive/Differential warranty is limited to the repair or replacement (including both parts and labor) of parts Quinn Company determines upon inspection to have been defective in material or workmanship.

Quinn Also Offers

EMSolutions

EMSolutions is a portfolio of technology-enabled services focused on delivering equipment management solutions for our customers. Technology built into today's equipment can give you the timely information you need. Using data from your machines and easy-to-use analysis tools from Quinn, you can make well-informed and timely equipment management decisions that can help you control costs, improve operations, manage people and reduce risk.

S•O•SSM Services

- Work with Quinn Company's trained Lab Analysts to take advantage of accurate fluid analysis backed by the expertise of manufacturer design specifications and engineers to lower your owning and operating costs
- All PRO-Basic and PRO-Major Repairs include six Quinn Company S•O•S samples. By performing regular oil sampling, you will help assure optimum performance, and will validate your Planned Repair Option Warranty

TA Inspections

TECHNICAL ANALYSIS 1

- Visual inspection of upper, middle, and lower machine levels
- Basic operational test of the machine
- S•O•S Fluid Analysis
- Inspect magnetic plugs where applicable

TECHNICAL ANALYSIS 2

TA1 Analysis, plus:

- Detailed inspection of machine systems and components
- Evaluation of pressures, temperatures, and other indicators to determine the health and condition of the machine
- Comprehensive report with recommendations

Quinn PRO overhauls include a 36 Month / 5,000 Hour warranty, whichever occurs first.

WHY QUINN?

Since 1919, Quinn Company has been serving Central and Southern California customers for their equipment, parts, and service needs. We work hard every day to exceed your expectations and continue to earn your business. Quinn has the largest support network in Central and Southern California. We offer 24/7 on-call service, on-site field service and 93% parts availability stocked and on the shelf. Contact Quinn and let us show you what sets us apart.
