# QUINN POWER SYSTEMS

## YOUR TOTAL POWER SOLUTIONS PROVIDER

Quinn Power Systems is best in class in its capabilities, resources and the consistent quality of the equipment and services it offers. For over 95 years, Quinn has been providing customers with superior products and expert advice.

No matter the size of your project, we have an experienced sales and engineering staff to help you get the right solution, from equipment to complete power solutions.

Our dedicated service and maintenance groups are available 24 hours a day, 7 days a week, 365 days a year, including emergency service and a complete fleet of on-site rental generators, temperature control equipment and oil free compressed air available at a moment's notice.

### RENTAL SOLUTIONS

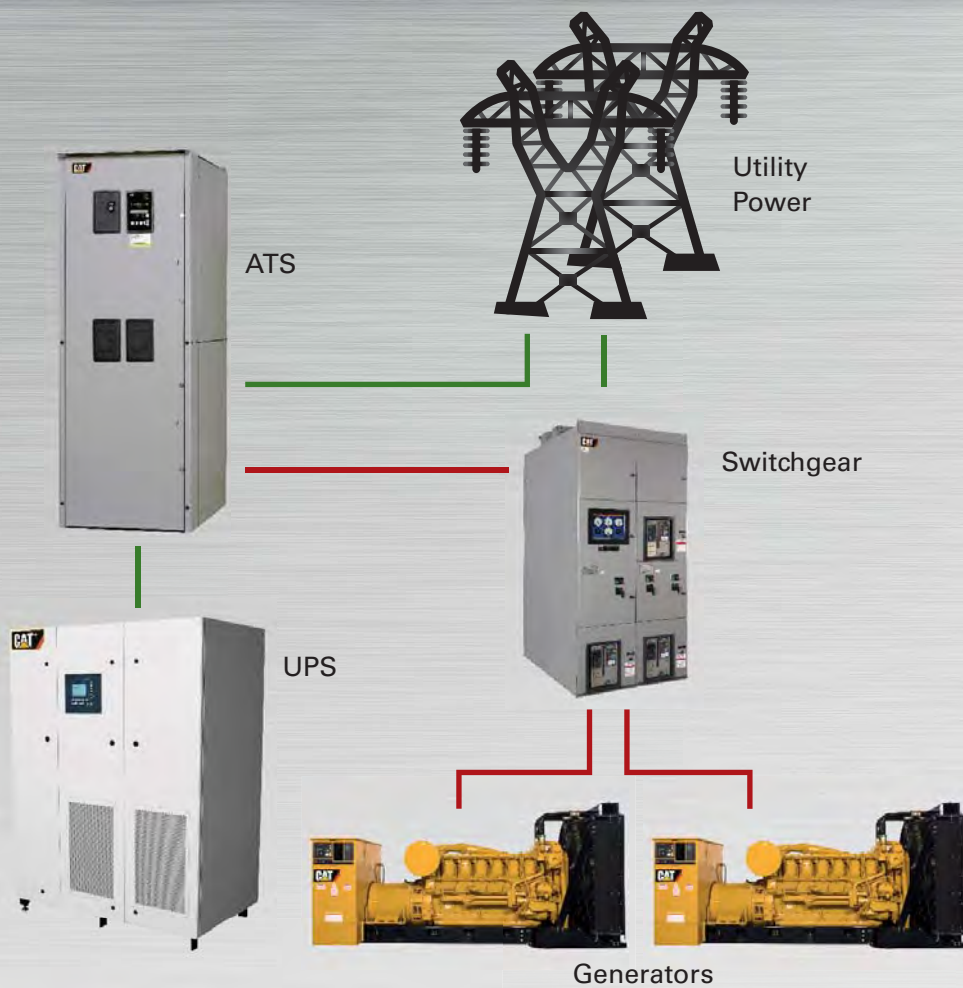

- Power Generation
  - Cables, ATS, Accessories
- Compressed Air
- Temperature Control
- Long Term & Temporary Solutions
- Irrigation Pumps
- Delivery, Install, Hook-up, Job Walk

### COMMERCIAL SERVICES

- Preventive Maintenance Service Agreements
- Electric Power Generation Field Service
- Marine & Industrial Service
- Ancillary Services

**PRODUCT SALES & SOLUTIONS**

- Diesel & Gaseous Fueled Generators
- Automatic Transfer Switch (ATS)
- Uninterruptable Power Supply (UPS)
- Switchgear

**ADVANCED ELECTRICAL SERVICES**

- Switchgear/Breaker/Relay Testing
- Automatic Transfer Switch Maintenance
- Transformer Service
- Uninterruptable Power Supply Maintenance

## YOUR TOTAL POWER SOLUTIONS PROVIDER

Quinn Power Systems has provided world-class commercial power generation systems to California for decades. We supply emergency, standby and prime power systems to hospitals, data centers, telecommunications sites, utilities, treatment plants, schools, high rises, high-tech manufacturing centers. We're leaders of Electric Power Generation, Uninterruptable Power Supply (UPS), Switchgear, and Automatic Transfer Switch (ATS) solutions.

# NEW & USED PRODUCT SALES

Electrical power systems supply both primary and standby power for a variety of uses - hospitals, schools, factories, airports, office buildings, data centers and oil rigs.

## DIESEL & GAS POWER GENERATION

Quinn Power Systems offers single-engine packages ranging from 25kW to 4000kW, and can be paralleled for higher kW output or redundancy. Standby gas and diesel generators, prime power gas and diesel generators, and combined heat and power (cogeneration) solutions are Quinn's specialties.

## USED POWER SALES

Our large, diverse, and internationally sourced inventory of diesel and gas generators includes equipment from Cat® & other manufacturers. Ensuring you'll be choosing from only the highest quality, every unit in our used equipment inventory has been through a detailed inspection by our service department.

## ENGINEERED SOLUTIONS

No matter the project size, the experienced and dedicated Quinn Power System's staff will deliver the right solution for the right cost.

- **Upfront Engineering Support**  
Sizing, drawings, equipment selection, codes
- **Seismic**
- **Project Management**
- **Dedicated Commissioning Group**
- **Emergency Standby**
- **Prime Power**  
Cogen, peak shaving, biogas
- **Emissions Solutions**
- **Off Road Stationary**
- **Portable Diesel Equipment**
- **Project Financing**
- **Warranty**

## ELECTRIC POWER EQUIPMENT

- **40-4000 kW Diesel**
- **25-4000 kW Gas**  
Off-road, Stationary, or Portable Diesel Equipment
- **Industrial Engines**  
Diesel or Natural Gas  
Booster pumps
- **Marine Engines and Generators**  
Commercial & Pleasurecraft
- **Uninterruptible Power Supply (UPS)**  
Flywheel  
Double Conversion
- **Transfer Switches**  
Automatic, manual
- **Paralleling**  
Custom Switchgear  
Onboard
- **Emission Control**
- **Accessories**  
Enclosures, fuel tanks, load banks
- **Used Equipment**

# FIELD SERVICE & PRODUCT SUPPORT MAINTENANCE SOLUTIONS

## PREVENTIVE MAINTENANCE AGREEMENTS

## EMERGENCY & AFTER HOURS SUPPORT 365 DAYS/YEAR

We offer standby, emergency & prime power Monthly, Quarterly, and Yearly service options, or we can build a completely customized plan to meet your budgetary and application needs. Quinn Power Systems factory-trained technicians service engine driven Marine Vessels, Industrial, Fire Pumps, Agricultural Pumps, Deep Well Pumps, as well as Generators, UPS, Switchgear and Automatic Transfer Switches.

## ELECTRIC POWER GENERATION FIELD SERVICE

Our main goal is keeping our customers up and running. Our field technicians are experienced at handling any job and are supported by a vast network of support services.

- Complete Field Service fleet – located throughout Central & Southern CA. and having over 50 field service trucks equipped with GPS, we can dispatch someone to your facility quickly and efficiently.
- Complete repair solutions for generators & automatic transfer switches, on Cat and Non-Cat brand systems.
- Load Bank testing – Resistive and Reactive 25kW to 5000kW.
- Compliance/Regulator testing – NFPA 99 & 110, OSHPD and JCAHO.
- Complete Fluid Analysis for record keeping and engine component wear monitoring to increase equipment lifecycle
- Emissions testing and analyzing
- Diesel Particulate Filter (DPF) Installations and retrofitting
- SCAQMD permit processing
- Diesel Particulate Filter (DPF) – Core cleaning and annual testing
- Cogeneration plant services
- In-house fabrication
- Extended Service coverage
- Cat® Finance solutions

**MARINE & INDUSTRIAL ENGINE SERVICES**

**EMERGENCY & AFTER HOURS SUPPORT 365 DAYS/YEAR**

**Commercial & Pleasurecraft Marine Vessels**

- Dockside Service
- Marine Inspections
- Sea Trials
- Advanced Marine Diagnostics
- Advanced Mechanical Repairs
- Engine Monitoring and Display Systems

- Engine Retrofit & Repowers
- Marine Controls
- Emissions Specialists
- Start-up/commissioning
- Marine PAR Analyst
- Marine Propulsion Specialties
- Military, Ferry, Tug, Cargo Ship

- Marine Power Generation
- Marine Fabrication/Welding (guards, mounts, etc.)
- Extended Service Coverage
- Overhaul Protection Coverage
- Cat Financial Solutions

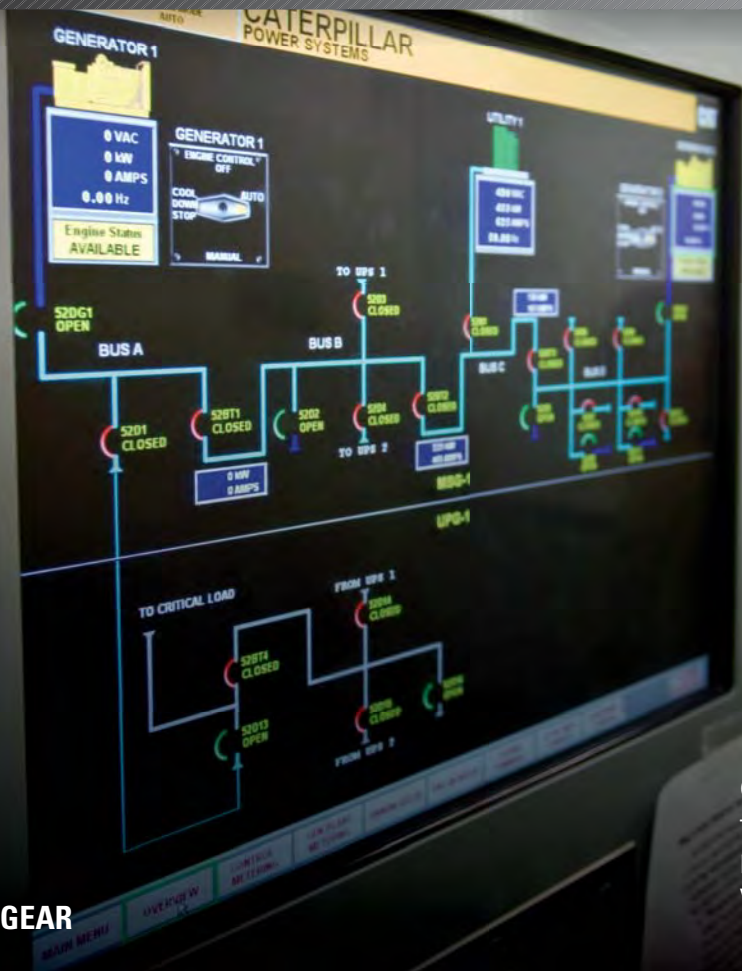

**Industrial, Locomotive, Petroleum & Agricultural**

- Engines
- Tier 4 Specialist
- Diesel Emissions Products
- Offshore Oil Platforms
- Locomotive Generators
- Landfill

- Natural Gas Engines
- Fire Pump Engines
- Locomotive Support Services
- P.M. Services
- Transmissions
- Vibration Analyst

- Battery Boxes
- Extended Service Coverage
- Overhaul Protection Coverage
- Cat Financial Solutions

Quinn Power Systems has more highly trained technicians than any other power systems service provider in California. We're there whenever and wherever you need us.

**SWITCHGEAR**

**UPS SERVICE**

**BREAKER TEST**

**THERMOGRAPHY**

### **SWITCHGEAR/BREAKER/RELAY**

- Circuit Breaker primary and secondary injection
  - Protective Relay Testing
  - Current and Potential Transformer Testing
- 

### **AUTOMATIC TRANSFER SWITCH MAINTENANCE**

- Verify transfer switch and control reliability
  - Contactor Lubrication and Calibration
  - Achieve peak performance with preventive maintenance
  - Cleaning and safety inspection
- 

### **TRANSFORMER**

- Dissolved Gas Oil Analysis
  - Turns Ratio Testing
  - Power Factor Analysis
- 

### **UNINTERRUPTIBLE POWER SUPPLY (UPS)**

- Capacitor Replacement
- Battery Impedance Testing
- Battery Replacement
- Cell Base lining and monitoring

# RENTAL SOLUTIONS

Through our branch network, we offer a rental product line specifically designed to meet the needs of commercial, industrial, institutional and manufacturing facilities. Our line encompasses the most critical systems to your operations, including temperature control, compressed air, and of course, electric power products. We have the largest, most modern fleet of equipment in the West, backed by a service network with over 500 technicians and over 23 million dollars in rental inventory, so you can be sure that you will have the right equipment to meet your needs in all the places you do business.

## POWER GENERATION

- 20kW to 2000kW
- EPA/CARB Certified
- Multi-Voltage Capabilities
- Sound Attenuated 65dba – 72dba
- Trailer Mounted
- On Board Double Wall Contained Fuel Tanks
- Auto-Start Capable
- Unlimited Paralleling Capability

## TEMPERATURE CONTROL

- 25, 60 and 90 ton DX Electric Heat/Air Conditioning Units
- Air Handling Units to 30,000 CFM with Chill Water Coil & Electric Heat
- 25 to 600 ton Air Cooled Chillers
- 500 ton Water Cooled Chillers
- 180 to 750 ton Cooling Towers
- 10 to 60 HP Water Pumps with Variable Flow Capabilities
- Used Equipment Sales Available
- Custom Packages Built to Specification
- 3 MBTU Boilers

## COMPRESSED AIR

- 100% Oil Free Electric Drive Air Compressors 400 to 800 CFM
- 100% Oil Free Diesel Drive Air Compressors 1500 CFM
- Oil Flooded Air Diesel Drive 375 to 1600 CFM
- Instrument Quality Air Diesel Drive 375 to 1600 CFM
- High Pressure Compressors 900 to 1150 CFM, 350 to 500 PSI
- Oil Flood Aftercooled Variable Speed Electric Drive 40 to 300HP, 80 to 175 PSI
- New and Used Sales 185 to 1900 CFM Diesel and Electric
- Authorized Sullair Service and Parts Center for Central and Southern California
- Custom-Built Compressor Packages
- Boosters up to 3600 PSI

## ANCILLARY EQUIPMENT

- Spider Boxes
- Distribution
- Cables
- Transfer Switches
- Cable Ramps

## SERVICES

- Delivery
- Sizing
- Hook-up
- Fuel
