QUINN POWER SYSTEMS RENTALS

Since 1919, Quinn Power Systems has offered sales, rentals and service of high-quality industrial machinery. With the largest selection of rental power equipment in California, we have generators, load banks and other products for every possible application. You can also rent high-pressure air compressors for your one-time jobs or when your equipment is being fixed.

Quinn Power Systems has the most dependable and up-to-date electric power rental equipment and high-pressure air compressor rentals in central and southern California. Our power rental product line is designed to meet your needs during both emergency and planned outages. Our air compressor and power products serve commercial, industrial, institutional and manufacturing facilities as well as our agricultural clients.
